

## INDEX OF SUBJECTS

### A

- Androgen.** — The effect of combined . . . and estrogen on the prostate (*Moore and McLellan*) (September) ----- 617\*
- Angioreticuloendothelioma.** — . . . (Kaposi's disease) of the heart (*Choisser and Ramsey*) (March) ----- 155
- Anterior pituitary extract.** — Growth processes in cartilage and bone subsequent to gonadectomy and administration of . . . of cattle in immature male and female guinea pigs (*Silberberg and Silberberg*) (January) ----- 55
- Anterior pituitary hormone.** — A comparison of the effects of . . . on skeletal tissues of young and mature guinea pigs (*Silberberg and Silberberg*) (September) ----- 547
- Aorta.** — Experimental acute hypertension from obstruction of the . . . (*Brotchner and Bell*) (September) ----- 624\*
- Arteritis.** — Experimental infectious phlebitis and . . . (*LeCompte and Winternitz*) (September) ----- 632\*
- Arthritis.** — Experimental . . . in mice produced by filtrable pleuropneumonia-like microorganisms (*Sabin*) (September) ----- 598\*
- Azotemia.** — Changes in the larger arteries associated with experimental hypertension and . . . (*Waters and Winternitz*) (September) ----- 626\*

### B

- B. violaceus.** — A study of two strains of . . . isolated from human beings (*Soule*) (September) ----- 592\*
- Bile salt.** — Plasma protein, . . . and cholesterol metabolism as influenced by multiple injections of gum acacia in bile fistula dogs (*Metcalf and Hawkins*) (July) ----- 429
- Blood cholinesterase.** — . . . in rheumatic fever (*Schultz and Rose*) (September) ----- 632\*
- Bone.** — Growth processes in cartilage and . . . subsequent to gonadectomy and administration of anterior pituitary extract of cattle in immature male and female guinea pigs (*Silberberg and Silberberg*) (January) ----- 55
- Bone marrow.** — The lymphoid nodules of human . . . (*Williams*) (May) 377
- Brain stem hemorrhages.** — Traumatic . . . (*Linell*) (September) ----- 638\*
- Breast.** — Intracystic papilloma of the . . . (*Saphir*) (September) ----- 605\*
- Bronchiectasis.** — A study of . . . in fifty lobectomy cases (*Robinson*) (September) ----- 638\*
- Brucelliasis.** — The pathology of human . . . (*Parsons, Poston and Wise*) (September) ----- 634\*

### C

- Calcium.** — The electron microscope and its use in localizing magnesium and . . . in tissue sections (*Scott*) (September) ----- 654\*

\*Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Richmond, Virginia, April 6 and 7, 1939.

<b>Carcinogenic hydrocarbons.</b> — The response of the central nervous system to the application of . . . I. Dibenzanthracene ( <i>Peers</i> ) (March) . . . . .	261
<b>Carcinoma.</b> — . . . of the kidney in a colony of rhesus monkeys ( <i>Ratcliffe</i> ) (September) . . . . .	613*
<b>Carcinoma.</b> — . . . of the lung. An analysis of seventy-four autopsies ( <i>D'Aunoy, Pearson and Halpert</i> ) (September) . . . . .	567
<b>Carcinoma.</b> — . . . of the lung. An analysis of seventy-four autopsies ( <i>D'Aunoy, Pearson and Halpert</i> ) (September) . . . . .	607*
<b>Carcinoma.</b> — . . . of the pancreas. An analysis of forty autopsies ( <i>D'Aunoy, Ogden and Halpert</i> ) (March) . . . . .	217
<b>Cartilage.</b> — Growth processes in . . . and bone subsequent to gonadectomy and administration of anterior pituitary extract of cattle in immature male and female guinea pigs ( <i>Silberberg and Silberberg</i> ) (January) . . . . .	55
<b>Cartilage remnants.</b> — Studies on experimental rickets in rats. III. The behavior and fate of the . . . in the rachitic metaphysis ( <i>Dodds and Cameron</i> ) (November) . . . . .	723
<b>Cellophane.</b> — Hypertension following experimental perinephritis induced by . . . . A preliminary report ( <i>Page and Graef</i> ) (September) . . . . .	623*
<b>Central nervous system.</b> — The response of the . . . to the application of carcinogenic hydrocarbons. I. Dibenzanthracene ( <i>Peers</i> ) (March) . . . . .	261
<b>Cerebral vascular disease.</b> — . . . accompanying sickle cell anemia ( <i>Bridgers</i> ) (May) . . . . .	353
<b>Chickenpox.</b> — Giant cell formation in the tonsils in the prodromal stage of . . . . Report of a case ( <i>Tomlinson</i> ) (September) . . . . .	523
<b>Cholesterol metabolism.</b> — Plasma protein, bile salt and . . . as influenced by multiple injections of gum acacia in bile fistula dogs ( <i>Metcalf and Hawkins</i> ) (July) . . . . .	429
<b>Chorionepithelioma.</b> — Primary . . . of the urinary bladder in a male. Report of a case ( <i>Weinberg</i> ) (November) . . . . .	783
<b>Choroid plexus.</b> — Stromal tumors of the . . . ( <i>Liber and Lisa</i> ) (September) . . . . .	609*
<b>Cirrhosis.</b> — The development of hepatic . . . following hypophysectomy ( <i>Page, Graef and Sweet</i> ) (September) . . . . .	647*
<b>Cirrhosis.</b> — The effect of yeast on the incidence of . . . produced by lead arsenate ( <i>VonGlahn and Flinn</i> ) (November) . . . . .	771
<b>Cirrhosis.</b> — Vitamin A storage in active and arrested . . . ( <i>Cox</i> ) (September) . . . . .	647*
<b>Coarctation of aorta.</b> — Vascular hypertension occurring in cases of . . . ( <i>Freund</i> ) (September) . . . . .	622*
<b>Copper.</b> — Fixing and staining methods for lead and . . . in tissues ( <i>Mallory and Parker</i> ) (September) . . . . .	517

## D

<b>1:2:5:6-Dibenzanthracene.</b> — Histological study of the development of pulmonary tumors induced by . . . and methylcholanthrene in strain A mice ( <i>Grady and Stewart</i> ) (September) . . . . .	615*
<b>Dibenzanthracene.</b> — The response of the central nervous system to the application of carcinogenic hydrocarbons. I. . . . . ( <i>Peers</i> ) (March) . . . . .	261

E

<b>Electron microscope.</b> — The . . . and its use in localizing magnesium and calcium in tissue sections ( <i>Scott</i> ) (September) -----	654*
<b>Encephalitis.</b> — The pathology of . . . in man caused by the virus of the eastern variety of equine encephalomyelitis ( <i>Branch and Farber</i> ) (September) -----	637*
<b>Encephalomyelitis.</b> — Toxoplasmic . . . . III. A new case of granulomatous encephalitis due to a protozoon ( <i>Wolf, Cowen and Paige</i> ) (November) -----	657
<b>Endocarditis.</b> — Active . . . in the newborn (report of 2 cases) ( <i>Plaut</i> ) (September) -----	649*
<b>Endocarditis lenta.</b> — Experimental production of . . . ( <i>MacNeal, Spence and Wasseen</i> ) (November) -----	695
<b>Endocarditis lenta.</b> — Transmission of . . . to rabbits ( <i>MacNeal, Spence and Wasseen</i> ) (September) -----	600*
<b>Equine encephalomyelitis.</b> — The pathology of encephalitis in man caused by the virus of the eastern variety of . . . ( <i>Branch and Farber</i> ) (September) -----	637*
<b>Estrogen.</b> — The effect of combined androgen and . . . on the prostate ( <i>Moore and McLellan</i> ) (September) -----	617*
<b>Exophthalmos.</b> — The histology of orbital and other fat tissue deposits in animals with experimentally produced . . . ( <i>Smelser</i> ) (May) -----	341
<b>Experimental pneumonia.</b> — . . . produced by typhus Rickettsiae ( <i>Castaneda</i> ) (July) -----	467

F

<b>Fat tissue deposits.</b> — The histology of orbital and other . . . in animals with experimentally produced exophthalmos ( <i>Smelser</i> ) (May) -----	341
<b>Fibrocartilage.</b> — The causal significance of traumatic ossification of the . . . in tendon insertions ( <i>Hirsch and Morgan</i> ) (September) -----	644*
<b>Fibroleiomyoma.</b> — Metastasizing . . . of the uterus. Report of a case and review of the literature ( <i>Steiner</i> ) (January) -----	89
<b>Fluorescence microscopy.</b> — The demonstration of plasma proteins in the tissue by means of . . . ( <i>Popper</i> ) (September) -----	651*

G

<b>Giant cell formation.</b> — . . . in the tonsils in the prodromal stage of chickenpox. Report of a case ( <i>Tomlinson</i> ) (September) -----	523
<b>Gonadectomy.</b> — Growth processes in cartilage and bone subsequent to . . . and administration of anterior pituitary extract of cattle in immature male and female guinea pigs ( <i>Silberberg and Silberberg</i> ) (January) -----	55
<b>Gum acacia.</b> — Plasma protein, bile salt and cholesterol metabolism as influenced by multiple injections of . . . in bile fistula dogs ( <i>Metcalf and Hawkins</i> ) (July) -----	429

H

<b>Heart.</b> — Angiorecticuloendothelioma (Kaposi's disease) of the . . . ( <i>Choisser and Ramsey</i> ) (March) -----	155
---	-----

<b>Heart.</b> — Congenital rhabdomyoma of the . . . . Report of a case ( <i>Labate</i> ) (January) -----	137
<b>Heart.</b> — Pathological changes in the . . . , skeletal musculature and liver in rabbits treated with insulin in shock dosage ( <i>Tannenbergs</i> ) (January) -----	25
<b>Hemolytic streptococcus.</b> — Studies on the histopathological changes produced in rabbits by experimental inoculation with the . . . , its nucleoprotein agglutinogenic fraction and 9 per cent saponin. Preliminary report ( <i>Smith, Morgan and Mudd</i> ) (September) -----	604*
<b>Hemosiderin.</b> — Experiments on the solubility of . . . in acids and other reagents during and after various fixations ( <i>Lillie</i> ) (March) -----	225
<b>Hepatitis.</b> — Acute hypertrophic . . . ( <i>Kirshbaum and Popper</i> ) (September) -----	646*
<b>Histoplasmosis.</b> — . . . in infancy. Report of a case ( <i>Amolsch and Wax</i> ) (July) -----	477
<b>Hyperparathyroidism.</b> — Primary . . . with extensive renal calcification and secondary hyperplasia of the parathyroids. Report of a case ( <i>Johnson</i> ) (January) -----	111
<b>Hypertension.</b> — Changes in the larger arteries associated with experimental . . . and azotemia ( <i>Waters and Winternitz</i> ) (September) ---	626*
<b>Hypertension.</b> — Essential and paroxysmal . . . , contrasted by case reports ( <i>Foucar</i> ) (November) -----	741
<b>Hypertension.</b> — Experimental acute . . . from obstruction of the aorta ( <i>Brothner and Bell</i> ) (September) -----	624*
<b>Hypertension.</b> — Experimental observations on the pathogenesis of . . . ( <i>Goldblatt</i> ) (September) -----	619*
<b>Hypertension.</b> — . . . following experimental perinephritis induced by cellophane. A preliminary report ( <i>Page and Graef</i> ) (September) ---	623*
<b>Hypertension.</b> — Vascular . . . occurring in cases of coarctation of the aorta ( <i>Freund</i> ) (September) -----	622*
<b>Hypertension.</b> — Vascular measurements in . . . ( <i>MacMahon</i> ) (September) -----	625*
<b>Hypophysectomy.</b> — The development of hepatic cirrhosis following . . . ( <i>Page, Graef and Sweet</i> ) (September) -----	647*
<b>Hypophysis.</b> — Cytological changes induced in the . . . by the prolonged administration of pituitary extract ( <i>Severinghaus and Thompson</i> ) (July) -----	391

## I

<b>Inclusion bodies.</b> — Multinucleate giant cells with . . . in a fatal case of prodromal measles ( <i>Semsroth</i> ) (September) -----	655*
<b>Inflammation.</b> — Methods which may aid through correlation in explaining physiological and pathological sequences of events in the spread of . . . ( <i>Williams</i> ) (September) -----	595*
<b>Inflammation.</b> — The influence of . . . on the skin necrotizing action of staphylococcus toxin ( <i>Kenton</i> ) (March) -----	185
<b>Inflammation.</b> — The lymphocyte in . . . ( <i>Kolouch</i> ) (July) -----	413
<b>Influenza.</b> — Observations on the virulence and other properties of streptococci isolated in studies of . . . ( <i>Rosenow</i> ) (September) ---	653*

<b>Insulin.</b> — Pathological changes in the heart, skeletal musculature and liver in rabbits treated with . . . in shock dosage ( <i>Tannenbergs</i> ) (January) . . . . .	25
<b>Insulin hypoglycemic reaction.</b> — The relation of the . . . to shock ( <i>Corwin</i> ) (September) . . . . .	642*
<b>Intestinal adenoma.</b> — Studies on a rapidly developing . . . in a pig ( <i>Biesler, Schwarte and Eveleth</i> ) (May) . . . . .	385
<b>Intestinal lipodystrophy of Whipple.</b> — Malabsorption of fat (. . .). Report of a case ( <i>Reinhart and Wilson</i> ) (July) . . . . .	483
<b>Intestinal lipodystrophy of Whipple.</b> — Malabsorption of fat (. . .). ( <i>Reinhart and Wilson</i> ) (September) . . . . .	618*
<b>Intracellular bacilli.</b> — . . . in intestinal and mesenteric lesions of typhoid fever ( <i>Adams</i> ) (September) . . . . .	561
<b>Intracerebral blood vessels.</b> — A method for the impregnation of perivascular nerves on . . . ( <i>Humphreys</i> ) (January) . . . . .	151
<b>Iron.</b> — . . . hematoxylin containing ferric and ferrous . . . ( <i>Lillie and Earle</i> ) (November) . . . . .	765
<b>Iron hematoxylin.</b> — . . . containing ferric and ferrous iron ( <i>Lillie and Earle</i> ) (November) . . . . .	765

K

<b>Kaposi's disease.</b> — Angioreticuloendothelioma (. . .) of the heart ( <i>Choisser and Ramsey</i> ) (March) . . . . .	155
<b>Kidney.</b> — Carcinoma of the . . . in a colony of rhesus monkeys ( <i>Ratcliffe</i> ) (September) . . . . .	613*
<b>Killed tubercle bacilli.</b> — The reaction to . . . in normal and immunized (sensitized) rabbits ( <i>Olcott</i> ) (May) . . . . .	287

L

<b>Lead.</b> — Fixing and staining methods for . . . and copper in tissues ( <i>Mallory and Parker</i> ) (September) . . . . .	517
<b>Lead arsenate.</b> — The effect of yeast on the incidence of cirrhosis produced by . . . ( <i>VonGlahn and Flinn</i> ) (November) . . . . .	771
<b>Leukocytes.</b> — Motility and chemotaxis of . . . in health and disease ( <i>McCulcheon and Mallery</i> ) (September) . . . . .	633*
<b>Leukocytic response.</b> — Experimental peritonitis: Alteration of the . . . after repeated injections of physiologic saline ( <i>Coman</i> ) (September) . . . . .	597*
<b>Liver.</b> — Pathological changes in the heart, skeletal musculature and . . . in rabbits treated with insulin in shock dosage ( <i>Tannenbergs</i> ) (January) . . . . .	25
<b>Lung.</b> — Carcinoma of the . . . . An analysis of seventy-four autopsies ( <i>D'Aunoy, Pearson and Halpert</i> ) (September) . . . . .	567
<b>Lung.</b> — Carcinoma of the . . . . An analysis of seventy-four autopsies ( <i>D'Aunoy, Pearson and Halpert</i> ) (September) . . . . .	607*
<b>Lung.</b> — The occurrence of virulent tubercle bacilli in presumably non-tuberculous . . . tissue ( <i>Feldman and Baggenstoss</i> ) (September) . . . . .	501
<b>Lung.</b> — The occurrence of virulent tubercle bacilli in presumably non-tuberculous tissues of the . . . ( <i>Feldman and Baggenstoss</i> ) (September) . . . . .	590*
<b>Lymphocyte.</b> — The . . . in acute inflammation ( <i>Kolouch</i> ) (July) . . . . .	413
<b>Lymphoid nodule.</b> — The . . . of human bone marrow ( <i>Williams</i> ) (May) . . . . .	377

## M

- Magnesium.** — The electron microscope and its use in localizing . . . and calcium in tissue sections (*Scott*) (September) ----- 654\*
- Malabsorption of fat.** — . . . (intestinal lipodystrophy of Whipple). Report of a case (*Reinhart and Wilson*) (July) ----- 483
- Malabsorption of fat.** — . . . (intestinal lipodystrophy of Whipple). (*Reinhart and Wilson*) (September) ----- 618\*
- Mammary carcinoma.** — The pathology of . . . of the rabbit (*Greene*) (September) ----- 614\*
- Mesenteric lesions.** — Intracellular bacilli in intestinal and . . . of typhoid fever (*Adams*) (September) ----- 561
- Mesentery.** — A rare case of neurofibroma of the . . . resected during the latter months of pregnancy followed by uneventful recovery and normal delivery (*Polayes and Timm*) (September) ----- 651\*
- Metaplastic ossification.** — Studies on . . . (*Jacobson*) (September) --- 643\*
- Methylcholanthrene.** — Histological study of the development of pulmonary tumors induced by 1:2:5:6-dibenzanthracene and . . . in strain A mice (*Grady and Stewart*) (September) ----- 615\*
- Methylcholanthrene.** — Skin tumors following a single application of . . . in C57 brown mice (*Mider and Morton*) (May) ----- 299
- Methylcholanthrene pellets.** — Study of the histological changes and transplantation of tissue surrounding . . . during the latent period of tumor development in female C3H mice (*Stewart*) (November) --- 707
- Miliary tubercles.** — The incidence and significance of healed . . . in the parenchymatous organs (*Reichle and Work*) (September) ----- 587\*
- Moose encephalitis.** — . . . (*King*) (July) ----- 445
- Multinucleate giant cells.** — . . . with inclusion bodies in a fatal case of prodromal measles (*Semsroth*) (September) ----- 655\*
- Muscular dystrophy.** — . . . in biliary fistula dogs (*Warner and Brinkhous*) (September) ----- 646\*
- Myelin degeneration.** — The polarized light method for the study of . . . as compared with the Marchi and Sudan III methods (*Prickett and Stevens*) (March) ----- 241
- Myocardium.** — Lesions of the . . . associated with a low potassium diet (*Mylon, Thomas and Winternitz*) (September) ----- 649\*
- Myocardium.** — Metastatic tumors of the . . . (*Ritchie*) (September) -- 610\*

## N

- Nephritis.** — A study of experimental . . . in the horse (*Schleifstein*) (September) ----- 596\*
- Nephrotoxic nephritis.** — The effect of diet on the pathological changes in rats with . . . (*Smadel and Farr*) (March) ----- 199
- Neurofibroma.** — A rare case of . . . of the mesentery resected during the latter months of pregnancy followed by uneventful recovery and normal delivery (*Polayes and Timm*) (September) ----- 651\*
- Nutritional muscular dystrophy.** — The pathology of . . . in young rats (*Pappenheimer*) (March) ----- 179

O

- Ovarian tumors. — Concepts of a new classification of ... (*Schiller*)  
(September) ----- 611\*

P

- Pancreas. — Carcinoma of the .... An analysis of forty autopsies  
(*D'Aunoy, Ogden and Halpert*) (March) ----- 217
- Pancreatic islets. — A differential stain for cell types in the ... (*Gomori*)  
(July) ----- 497
- Papilloma. — Intracystic ... of the breast (*Saphir*) (September) ----- 605\*
- Parathyroids. — Primary hyperparathyroidism with extensive renal  
calcification and secondary hyperplasia of the .... Report of a  
case (*Johnson*) (January) ----- 111
- Perinephritis. — Hypertension following experimental ... induced by  
cellophane. A preliminary report (*Page and Graef*) (September) --- 623\*
- Peripheral nerves. — Histopathology of the ... in acute and chronic  
vitamin B<sub>1</sub> deficiency in the rat (*Prickett, Salmon and Schrader*)  
(March) ----- 251
- Peritonitis. — Experimental ... : Alteration of the leukocytic response  
after repeated injections of physiologic saline (*Coman*) (September) - 597\*
- Perivascular nerves. — A method for the impregnation of ... on intra-  
cerebral blood vessels (*Humphreys*) (January) ----- 151
- Phlebitis. — Experimental infectious ... and arteritis (*LeCompte and*  
*Winternitz*) (September) ----- 632\*
- Pituitary extract. — Cytological changes induced in the hypophysis by  
the prolonged administration of ... (*Severinghaus and Thompson*)  
(July) ----- 391
- Placenta. — The differentiation between spirochetes and spirochete-like  
structures in the ... (*Sahyoun*) (July) ----- 455
- Plasma protein. — ..., bile salt and cholesterol metabolism as influenced  
by multiple injections of gum acacia in bile fistula dogs (*Metcalf and*  
*Hawkins*) (July) ----- 429
- Plasma proteins. — The demonstration of ... in the tissue by means of  
fluorescence microscopy (*Popper*) (September) ----- 651\*
- Pleuropneumonia-like microorganisms. — Experimental arthritis in  
mice produced by filtrable ... (*Sabin*) (September) ----- 598\*
- Pneumococcic meningitis. — Experimental ... (a) Permeability of cere-  
brospinal barrier to antibodies. (b) Lack of immunity of recovered  
animals (*Gross and Cooper*) (September) ----- 602\*
- Pneumococcic meningitis. — Repair in experimental .... A histopatho-  
logical study of residual lesions in rats (*Gross, Cooper and Lewis*)  
(March) ----- 193
- Pneumococcus pneumonia. — The influence of sulfanilamid upon the  
evolution of experimentally-induced ... in rats (*Goldstein and*  
*Graef*) (September) ----- 603\*
- Polarized light. — The ... method for the study of myelin degeneration  
as compared with the Marchi and Sudan III methods (*Prickett and*  
*Stevens*) (March) ----- 241
- Polyarteritis nodosa. — .... Report of case (*Weir*) (January) ----- 79
- Polyvinyl alcohol. — ... storage disease (*Heuper*) (September) ----- 644\*

- Postoperative pulmonary embolism.** — Age and site of operation in relation to . . . (*McCartney*) (September) ----- 640\*
- Prodromal measles.** — Multinucleate giant cells with inclusion bodies in a fatal case of . . . (*Semsroth*) (September) ----- 655\*
- Prostate.** — The effect of combined androgen and estrogen on the . . . (*Moore and McLellan*) (September) ----- 617\*
- Pulmonary tumors.** — Histological study of the development of . . . induced by 1:2:5:6-dibenzanthracene and methylcholanthrene in strain A mice (*Grady and Stewart*) (September) ----- 615\*

## R

- Rachitic bone structure.** — A study of normal and . . . by microphotographic methods (*Siegel, Allen, McGuire and Falk*) (March) ----- 273
- Rachitic metaphysis.** — Studies on experimental rickets in rats. III. The behavior and fate of the cartilage remnants in the . . . (*Dodds and Cameron*) (November) ----- 723
- Red blood cells.** — Tissue responses to . . . (*Sarason, Thomas and Winternitz*) (September) ----- 654\*
- Renal calcification.** — Primary hyperparathyroidism with extensive . . . and secondary hyperplasia of the parathyroids. Report of a case (*Johnson*) (January) ----- 111
- Renal ischemia.** — Observations on the effects of . . . in pregnant dogs and rabbits (*Erickson and Dill*) (September) ----- 621\*
- Reticulum fibers.** — The effect of certain factors on the results of silver impregnation for . . . (*Gomori*) (July) ----- 493
- Rhabdomyoma.** — Congenital . . . of the heart. Report of a case (*Labate*) (January) ----- 137
- Rheumatic fever.** — Blood cholinesterase in . . . (*Schultz and Rose*) (September) ----- 632\*
- Rickets.** — Studies on experimental . . . in rats. III. The behavior and fate of the cartilage remnants in the rachitic metaphysis (*Dodds and Cameron*) (November) ----- 723

## S

- Salmonella aertrycke.** — A study of purified antigens in relation to virulence of rough and smooth strains of . . . (*Mackenzie, Pike and Swinney*) (September) ----- 592\*
- Shock.** — The relation of the insulin hypoglycemic reaction to . . . (*Corwin*) (September) ----- 642\*
- Sickle cell anemia.** — Cerebral vascular disease accompanying . . . (*Bridgers*) (May) ----- 353
- Silver impregnation.** — The effect of certain factors on the results of . . . for reticulum fibers (*Gomori*) (July) ----- 493
- Skeletal musculature.** — Pathological changes in the heart, . . . and liver in rabbits treated with insulin in shock dosage (*Tannenberg*) (January) ----- 25
- Skeletal tissues.** — A comparison of the effects of anterior pituitary hormone on . . . of young and mature guinea pigs (*Silberberg and Silberberg*) (September) ----- 547

<b>Skin tumors.</b> — . . . following a single application of methylcholanthrene in C57 brown mice ( <i>Mider and Morton</i> ) (May) -----	299
<b>Spirochetes.</b> — The differentiation between . . . and spirochete-like structures in the placenta ( <i>Sahyoun</i> ) (July) -----	455
<b>Splenic neoplasms.</b> — . . . ( <i>Goldberg</i> ) (September) -----	606*
<b>Splenic tissue.</b> — Traumatic autotransplantation of . . . ( <i>Jarcho and Andersen</i> ) (September) -----	527
<b>Staphylococcus toxin.</b> — The influence of inflammation on the skin necrotizing action of . . . ( <i>Kenton</i> ) (March) -----	185
<b>Streptococci.</b> — Observations on the virulence and other properties of . . . isolated in studies of influenza ( <i>Rosenow</i> ) (September) -----	653*
<b>Stromal tumors.</b> — . . . of the choroid plexus ( <i>Liber and Lisa</i> ) (September) -----	609*
<b>Submaxillary gland virus.</b> — Studies on the pathogenicity and cytological reactions of the . . . of the guinea pig ( <i>Rosenbusch and Lucas</i> ) (May) -----	303
<b>Sulfanilamid.</b> — The influence of . . . upon the evolution of experimentally-induced pneumococcus pneumonia in rats ( <i>Goldstein and Graef</i> ) (September) -----	603*
<b>Sympathetic nervous system.</b> — Tumors of the . . . ( <i>Potter and Parrish</i> ) (September) -----	652*

T

<b>Tendon insertions.</b> — The causal significance of traumatic ossification of the fibrocartilage in . . . ( <i>Hirsch and Morgan</i> ) (September) -----	644*
<b>Therapeutic hyperthermia.</b> — Pathological changes following . . . Report of a case ( <i>Lichtenstein</i> ) (May) -----	363
<b>Thrombopenic purpura.</b> — Pathological anatomy of experimental . . . in the dog ( <i>Tocantins and Stewart</i> ) (January) -----	1
<b>Thyroid feeding.</b> — The effect of . . . on tumor growth in thyroparathyroidectomized rats ( <i>Ferguson, Templeton, Patras and McJunkin</i> ) (September) -----	617*
<b>Tonsils.</b> — Giant cell formation in the . . . in the prodromal stage of chickenpox. Report of a case ( <i>Tomlinson</i> ) (September) -----	523
<b>Toxoplasmic encephalomyelitis.</b> — . . . III. A new case of granulomatous encephalitis due to a protozoon ( <i>Wolf, Cowen and Paige</i> ) (November) -----	657
<b>Trachoma.</b> — The antigenicity of the virus of . . . ( <i>Julianelle</i> ) (May) --	279
<b>Traumatic autotransplantation.</b> — . . . of splenic tissue ( <i>Jarcho and Andersen</i> ) (September) -----	527
<b>Traumatic ossification.</b> — The causal significance of . . . of the fibrocartilage in tendon insertions ( <i>Hirsch and Morgan</i> ) (September) --	644*
<b>Tropical cirrhosis.</b> — Experimental . . . ( <i>Rezek</i> ) (September) -----	648*
<b>Tubercle bacilli.</b> — The occurrence of virulent . . . in presumably non-tuberculous lung tissue ( <i>Feldman and Baggenstoss</i> ) (September) ---	501
<b>Tubercle bacilli.</b> — The occurrence of virulent . . . in presumably non-tuberculous tissues of the lung ( <i>Feldman and Baggenstoss</i> ) (September) -----	590*
<b>Tuberculophosphatide.</b> — Studies of the chemotactic properties of . . . and tuberculopolysaccharide ( <i>Wartman and Ingraham</i> ) (September) -----	591*

<b>Tuberculopolysaccharide.</b> —Studies of the chemotactic properties of tuberculophosphate and . . . ( <i>Wartman and Ingraham</i> ) (September) -----	591*
<b>Tuberculous lesions.</b> —Pathogenetic studies of . . . in adults ( <i>Terplan</i> ) (September) -----	585*
<b>Tularemic septicemia.</b> — . . . Report of a case ( <i>Kimmelstiel and Caldwell</i> ) (January) -----	127
<b>Tumors.</b> — . . . of the sympathetic nervous system ( <i>Potter and Parrish</i> ) (September) -----	652*
<b>Typhoid fever.</b> —Intracellular bacilli in intestinal and mesenteric lesions of . . . ( <i>Adams</i> ) (September) -----	561
<b>Typhus Rickettsiae.</b> —Experimental pneumonia produced by . . . ( <i>Castaneda</i> ) (July) -----	467

## U

<b>Ulcerative colitis.</b> —Observations on the etiology of . . . III. The distribution of lesions and its possible significance ( <i>Lium and Porter</i> ) (January) -----	73
<b>Urinary bladder.</b> —Primary chorionepithelioma of the . . . in a male. Report of a case ( <i>Weinberg</i> ) (November) -----	783
<b>Uterus.</b> —Metastasizing fibroleiomyoma of the . . . Report of a case and review of the literature ( <i>Steiner</i> ) (January) -----	89

## V

<b>Vascular measurements.</b> — . . . in hypertension ( <i>MacMahon</i> ) (September) -----	625*
<b>Virus.</b> —The antigenicity of the . . . of trachoma ( <i>Julianelle</i> ) (May) --	279
<b>Vitamin A.</b> — . . . storage in active and arrested cirrhosis ( <i>Cox</i> ) (September) -----	647*
<b>Vitamin B<sub>1</sub> deficiency.</b> —Histopathology of the peripheral nerves in acute and chronic . . . in the rat ( <i>Prickett, Salmon and Schrader</i> ) (March) -----	251

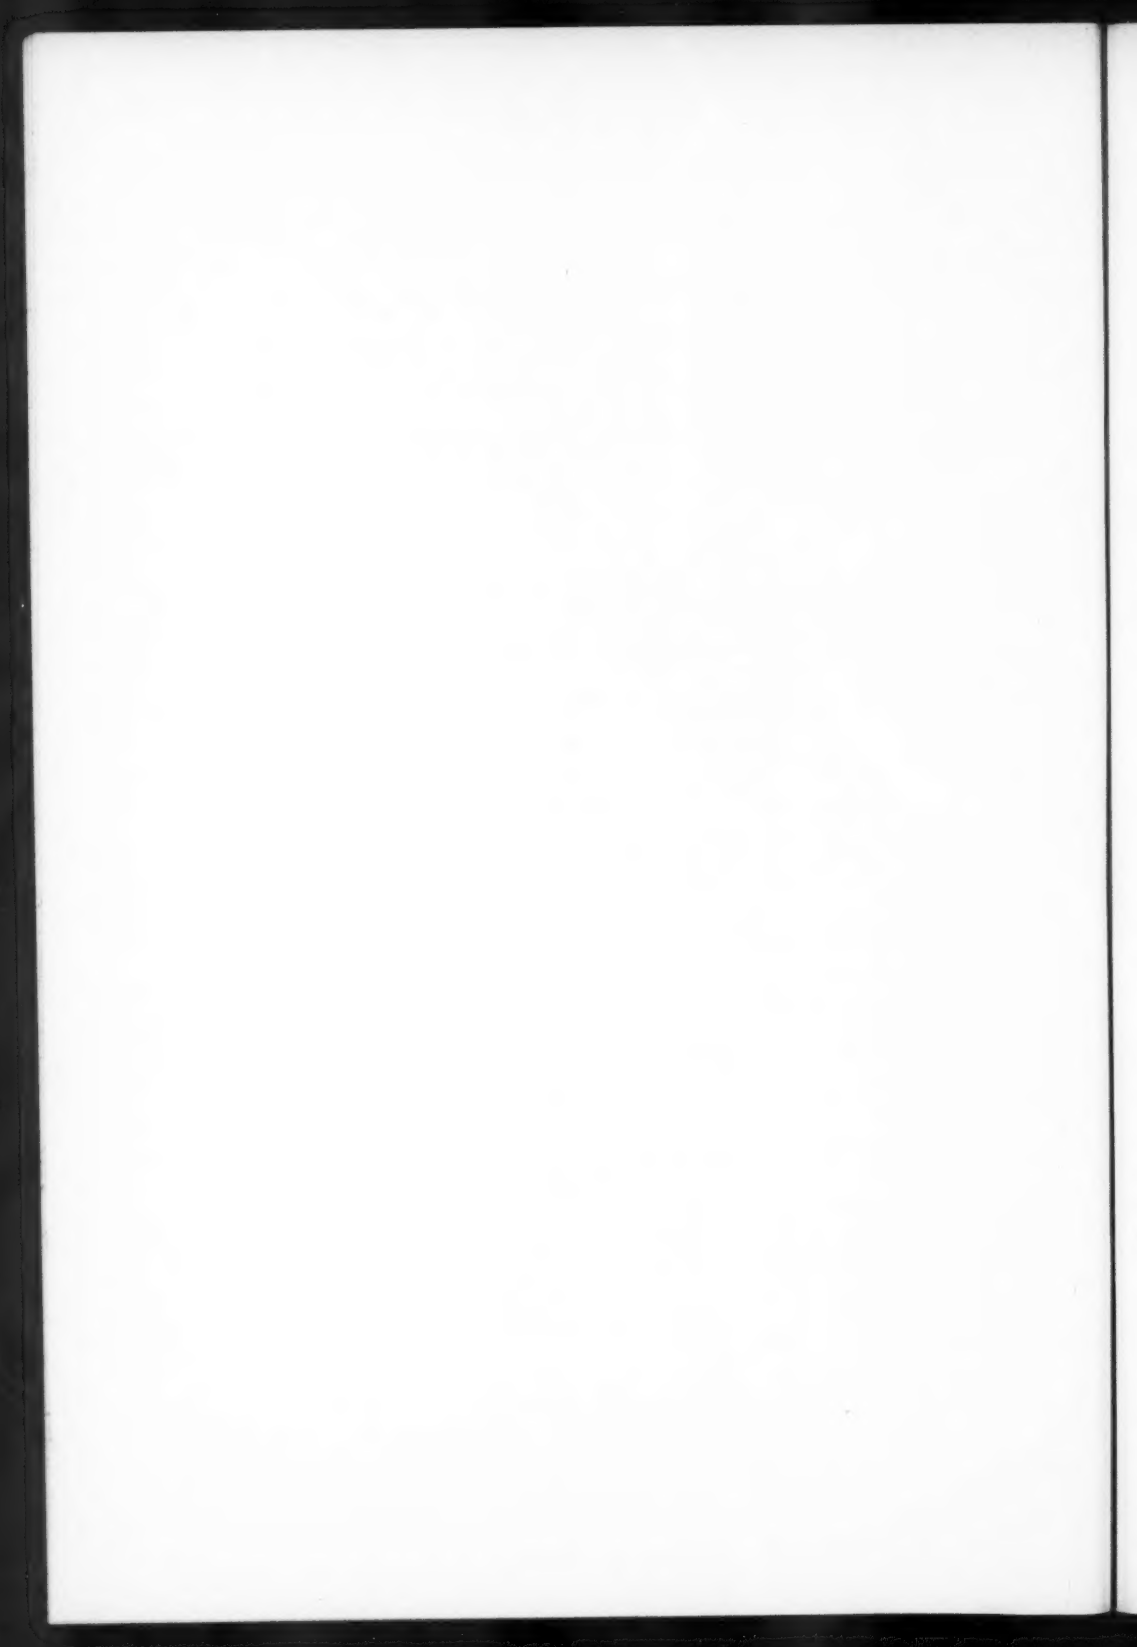

## X

<b>X-ray.</b> —Hypertension and kidney lesions produced by . . . ( <i>Hartman</i> ) (September) -----	623*
---	------

## Y

<b>Yeast.</b> —The effect of . . . on the incidence of cirrhosis produced by lead arsenate ( <i>VonGlahn and Flinn</i> ) (November) -----	771

- Adams, J. W., Jr.** Intracellular bacilli in intestinal and mesenteric lesions of typhoid fever (September) . . . . . 561
- Allen, Roy M.** See Siegel, Allen, McGuire and Falk (March) . . . . . 273
- Amolsch, Arthur L., and Wax, John H.** Histoplasmosis in infancy. Report of a case (July) . . . . . 477
- Andersen, Dorothy H.** See Jarcho and Andersen (September) . . . . . 527

### B

- Baggenstoss, Archie H.** See Feldman and Baggenstoss (September) . . . . . 501
- See Feldman and Baggenstoss (September) . . . . . 590\*
- Bell, E. T.** See Brotchner and Bell (September) . . . . . 624\*
- Biester, H. E., Schwarte, L. H., and Eveleth, D. F.** Studies on a rapidly developing intestinal adenoma in a pig (May) . . . . . 385
- Branch, Charles F., and Farber, Sidney.** The pathology of encephalitis in man caused by the virus of the eastern variety of equine encephalomyelitis (September) . . . . . 637\*
- Bridgers, William H.** Cerebral vascular disease accompanying sickle cell anemia (May) . . . . . 353
- Brinkhous, K. M.** See Warner and Brinkhous (September) . . . . . 647\*
- Brotchner, Robert, and Bell, E. T.** Experimental acute hypertension from obstruction of the aorta (September) . . . . . 624\*

### C

- Caldwell, Hayes W.** See Kimmelstiel and Caldwell (January) . . . . . 127
- Cameron, Hazel C.** See Dodds and Cameron (November) . . . . . 723
- Castaneda, M. Ruiz.** Experimental pneumonia produced by typhus *Rickettsiae* (July) . . . . . 467
- Choisser, Roger M., and Ramsey, Elizabeth M.** Angioreticuloendothelioma (Kaposi's disease) of the heart (March) . . . . . 155
- Coman, Dale Rex.** Experimental peritonitis: Alteration of the leukocytic response after repeated injections of physiologic saline (September) . . . . . 597\*
- Cooper, Frank B.** See Gross and Cooper (September) . . . . . 602\*
- See Gross, Cooper and Lewis (March) . . . . . 193
- Corwin, Warren C.** The relation of the insulin hypoglycemic reaction to shock (September) . . . . . 642\*
- Cowen, David.** See Wolf, Cowen and Paige (November) . . . . . 657
- Cox, Alvin J.** Vitamin A storage in active and arrested cirrhosis (September) . . . . . 647\*

\*Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Richmond, Virginia, April 6 and 7, 1939.
